Idaho Smiles Alert

- As of Nov. 1, 2010, Idaho Smiles Dental Program will not be the same.
- Are you aware of changes that were made to your benefits?

For more information regarding these changes, please check out our website at www.littlesmilesdental.com.

And the Winner Is...

December's winner for guessing the correct number of leaves is Cameron Sessions! Cameron guessed there were 253 leaves - and there were 255! He's the winner of a \$25 gift card to Barnes and Noble!

Why do we need to see children early?

- Between 40-50% of children will be affected by tooth decay before the age of 5.
- Of the patients treated in children's hospitals, 25% will receive their first "dental visit" in the emergency room.
- According to the 2000 Surgeon General's report, Oral Health in America, more than 51 million school hours are lost each year due to dental-related conditions.
- Of the 4 million children born each year, more than half will have cavities by the time they reach second grade.
